Dear Chairman Hatton

Please let this letter stand as an objection to the right increase of Kentucky Power Company. This matter is currently before your Board.

Kentucky Power is again seeking an unreasonable increase far above the rate of inflation. The company has spent large sums of money on things not relating to delivering electricity.

For example, they recently made a \$100,000 donation to a large hospital with substantial assets to build a driveway into the hospital property. They do this under the perception of economic development.

Kentucky Power also spends large sums of money for administrative salaries. Please get this matter your utmost attention in opposing the double digit rate increase they are seeking.

Sincerely,

Kevin Gunderson
