Comments:

A rate increase would be punching us when we are down. I know that I am not the only person or business that had yet to recover from the devastating floods. I'm currently trying to pay electric bills at my house that I still can't live in and at a family owned property. The electric bill at a house I don't live in and that doesn't have heating and cooling already nears \$200 on some months. It is outrageous. If this rate increase is allowed to happen it will just further prove there is no regard for human beings only already mega-wealthy companies. Please do not allow this to happen.
