Comments:

I vehemently disagree on the Kentucky Power proposed 14.9% rate hike. When it comes to energy burden 3% is the national average and anything over 6% is considered high and above 10% is considered severe. Kentucky Power customers pay between 6% to 16.7% (this information was obtained before the additional 6.37% securitization charge added in July)! MANY KENTUCKY RESIDENTS are already at the crossroads of "eat or heat" and are having to make difficult choices on a daily basis. Raising rates only further crushes the budgets on EKY families. We should not have to pay more for your closing of our local plant and moving it to WV and using WV coal. Shame on your greediness.
