Subject: Case No. 2025-00257 Kentucky Power

[REDACTED] [REDACTED] ?

This is in regards to a letter I received in the mail concerning a 14.9% rate hike for the Spring of 2026 by Kentucky Power. They have asked for rate hikes since 2020. With the Kentucky property tax increases for this year, I am tapped out. I am opposed to a rate hike by Kentucky Power and ask for the commission not to approve of this.

My address is:

Anthony and Suzanna Stephens

[REDACTED].

Ashland, KY 41101

Thank you,

Anthony Stephens

I do not agree with any rate increases for AEP/KY Power. Their rates are already so high it's difficult paying it along with other utilities and being able to have food to eat and last throughout the month. If this increase goes through people are basically gonna have to choose between having power or eating and that's just so uncivilized. Not to mention they never come out to help customers if there is an issue without trying to charge an unbelievable amount of money and they know people won't pay it so they don't have to come out. We are customers without us there would be no AEP/KY power! Treat us with some respect and dignity!

I am against the rate increases why should aep become rich when people can barely make ends meet ? This only happens due to no competition in the area from other vendors , they get rich while service never improves

Subject: Rate Increase KY Power/AEP

I'm very opposed to this rate increase. Energy rates in Pike Co are already the highest in the country. Rate increase will lead to future rate increases because of loss to customers moving outside Kentucky Power service area. It is in the best interest to not raise the rates to further burden the economy of Pike Co. If it is raised I will do one of 2 options move outside of Kentucky power area or remove all electrical to natural gas.

Comments:

Here we are again asking for a huge electric rate increase for our residential homes. I am totally against this size of rate increase. My paycheck did not see any pay hike to this magnitude. With the amount of corporate payrolls, bonuses etc that Kentucky Power gives out, a less rate hike of 5% would be better. I don't know how much reliance on Coal is for our energy, but it use to keep our costs down. In besides all of this all the different taxes, pay downs, etc. add-ons to my bill is ridiculous. I hope the PSC will deny that size of a rate increase.

Comments:

I am very concerned that the Commission is even considering allowing a rate hike of any amount for KY Power customers. The current state of utilities in southeastern Kentucky already requires much more income than most people make/can afford. Another 40 - 150 per month is an absolutely absurd ask. I think KP needs to have some competition when they think they can arbitrarily monopolize people's money. Please do not allow this hike.
