Hello,

I am writing in regarding this issue with Kentucky Power. As you are aware most of the Kentucky Power customers are struggling with high utility costs, inflated grocery costs, soon to be inflated insurance costs, and due to the current administration running our country, we will not see a reduction in any of those above mentioned costs. We are struggling, trying to keep food on our tables, while Kentucky Power, continues year after year, for their consumers to foot the bill for their aging infrastructure, and line the pockets of their board of directors.

I implore you to please reconsider their proposal for a rate hike. I also feel the cost of this should be transparent to their customers. Unlike other states we do not have a choice of providers. Kentucky Power has a monopoly in place, and they are well aware we are stuck with their service regardless. Please take into consideration the detrimental effect this will have on the residents within their service area. Some of the residents are fearing their food benefits may not arrive in November due to the

government shutdown. We do not need the additional stress with the passage of this rate hike.
