Comments:

Re: Case 2025-00257. I respectfully ask that PSC deny the 14.62% rate increase requested by Kentucky Power. Eastern Kentuckians struggle financially and, if passed, this rate increase adds to their struggle. The winter season is fast approaching and statistically more people die from cold than heat. Again, I ask that PSC deny Kentucky Power's request. Thank you,

Comments:

This is nothing more than further exploitation of the poor so that a handful of board members can further enrich themselves. Gross behavior.

Comments:

Do not raise our power bills. Your company is making too much profit as it is. You should be lowering everyone's rates instead. When does that ever happen? This is robbery. You must stop!

Comments:

People like myself who are disabled and on fixed income cannot afford yet another price hike. People like my seventy-three year-old grandmother who is on social security should not have to weigh if she will have to go to work again or go without power. The electric bill in a single wide trailer with a single TV in use, low heat use, and lights off when not in active use should not be over \$200. We are frequently choosing between being fed and being warm as the power bill is nearly a quarter of her income. Then, when you cant pay, youre expected to pay two months worth of bills as a deposit, with what money? Eastern Kentucky is an incredibly poor area and the greed disguised as raising costs to provide better service because we care is a gross misrepresentation of the values of this company, who cant even be bothered to remove one of the fallen poles from my grandmothers yard where it has been for over a year. Those who actually care about the wellbeing of Kentuckians will reject the request for higher fees, shareholders and board members continue to exploit a lack of meaningful competition in the area in order to extract as much value from each individual customer as possible and it is time to prioritize the community and their needs rather than a bottom line and profits at the top.

Comments:

My wife works a full time job and I'm having to work one full time job and two part jobs to just try and make it in this world. Eastern ky already has higher electrical rates than any place I know. It all boils down to AEP is trying to drain the mountain people dry. I ask you all to look at this if your on fixed income and the world is the way it is how would this theft of your money go for you. Thanks.

Comments:

Don't allow the rich to become richer by completely draining the already poor. When you allow this and suicides, homicides and other violence ensues... that blood will be on your hands.

Comments:

My electric bill has increased so much over the past year that another rate increase would cause my family to go without electricity. We keep our heat so low right now that all we can do is bundle up with blankets. Another rate increase will definitely cause the majority of Eastern Kentuckians to go without many necessities and may even cause deaths this winter.

Comments:

Please help eastern Kentucky families who are struggling by saying NO to the rate increase they are asking for.
