Subject: Rate hikes

Our electric bill has raised from 250.00 a month to 429.00 in the last three years. We are on a fixed income and can't afford another rate hike. Records show that Kentucky power and AEP is making record profits. We are on AMP which means we are paying over 400.00a month every month, and we can't afford this. Please say no to another rate hike.

Case number 2025-00257

The rate increase is absolutely unnecessary. People can hardly live with the rate increases between power & water companies, they are literally having to beg others for money just to keep their kids with power and water. Please consider this before approving another increase.
