Comments:

I received a letter from KY Frontier Gas yesterday announcing their intention to raise rates. Looking at the form they sent, residential customer charge is going up 92%, the Gas Base Rates CcF are going up 10%, and the average monthly customer usage CCF is going up 47% - average \$28.83 to \$42.43). This is ridiculous in the extreme at a time when people can barely afford utility charges as it is. The greed of these companies must be stopped, and the only recourse to that is the PSC.

I implore you to please turn down this drastic hike to increase their profits. Not a "negotiated" number as is the norm, where a company asks for a double digit increase and "settles" for ~7 or 8%. The tax payers cant take any more increases!! Please do the right thing and deny this increase in any form. This company is making plenty of money off the backs of working people.
