Comments:
Thank you for taking my comments.

I understand that compared to other utilities, the cost of water and sewer is lower. However, I have lived here since 2007 and have yet to get a GOOD QUALITY water report. Until this company can provide adequate services, they should not be given a raise.

Did water quality improve with other rate increases? No. What are they using the money for if not improving systems and training staff?

Please review water quality reports before ruling.

Thank you.
