Hello Angela,

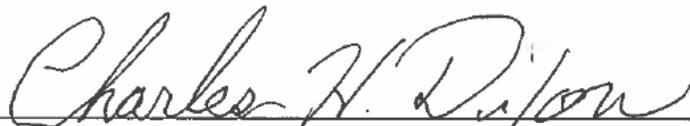

This is Hawkeye with the United Mine Workers of America. I write to you on behalf of my 1,200 UMWA Retirees and Widows living here in Pike County. Our concern is the 20% plus rate increase being asked for by the Mountain Water District.

Needless to say but MY PEOPLE are on fixed incomes AND are running out of check to pay for all these requested increases from our utility company's. If we don't stop winning here in E. Kentucky under the Trump Policies I'am afraid we are going to have to move back in with our children, that is those that yet have a home.

Mountain Water if we are to just believe them are losing 47% of our water due to leaks not to mention a recent purchase of \$200,000.00 to some monitoring company called ADT. Not quiet sure what the service is but quiet fairly sure it's a service that we haven't needed before.

**I am respectfully requesting that you use your office and kind heart to sway off this unnecessary rate increase by Mountain Water located here in Pike County Kentucky.**

Respectfully Requested
