Comments:

I simply think it is insanity that I have a \$195 average water and sewer bill per month. This is for water that I don't drink and cannot safely drink at all. It's also water that even taking a shower or bath with dries out my whole family's skin that we all have to use special soaps and lotions. If the rates continue to rise I will be drilling a well and putting my own sewer system in. If the bills keep rising I know many other customers that will follow suit and then the remaining customers will have even higher bills.
