

Bluegrass Water,

I Think I pay To much for  
sewer Bill now at 77.77. you  
wanting To charge more at a 30%  
increase is crazy. you do not need  
That much money. you Get enough now.  
I Think your company is Greedy.  
I disagree with any increase.

Yours sincerely

## BLUEGRASS WATER

Utility Operating Company

A CSWR Managed Utility

12/11/2025

Dear Customer:

We are writing to update you on the wastewater services that serve your community.

Since purchasing the wastewater system that serves you, Bluegrass Water Utility Operating Company, LLC (Bluegrass Water) has invested nearly \$18.6 million in Kentucky communities to ensure that you, your families and your neighbors have access to clean, safe and reliable wastewater resources. The infrastructure upgrades to the wastewater system serving you may include installation of remote monitoring equipment to assure facilities are closely tracked and working properly at all times; sewer plant improvements to ensure proper treatment including flow equalization, replacement of blowers, pipes, and diffusers in aeration tankage, and many more necessary repairs. As a result of these efforts and additional improvements planned, Bluegrass Water expects to submit a request on December 11, 2025 to the Kentucky Public Service Commission (PSC) for a general adjustment of rates charged for service in order to increase annual wastewater operating revenues by \$2,669,423.86.

**Please take notice of the following information about the proposed rate adjustment that is presented below:**

The rates contained in this notice are the rates proposed by Bluegrass Water, but the PSC, the state agency that regulates all utility services in Kentucky, may order rates to be charged that differ from the proposed rates found in this notice. The Company has proposed raising residential rates from the present rate of \$77.77 to the proposed rate of \$114.00 which represents an increase of \$36.23 or 46.6%. The Company has also proposed raising the multi-residential rate from \$58.33 to \$85.50 and the commercial rate from \$197.43 to \$285.00. Respectively, these changes represent an increase of \$27.17 or 46.6% and \$87.57 or 44.4%. The date the proposed rates are expected to be filed with the PSC is 12/11/2025; the proposed effective date of the rates is for service rendered on and after 1/31/2026. As there are only flat rates included in the existing tariff or which affect existing customers, the average customer usage is unknown and the effect the proposed rate will have on (i) the residential class is an increase of \$36.23 or 46.6%; (ii) the multi-residential class is an increase of \$27.17 or 46.6%; and (iii) the commercial class is an increase of \$87.57 or 44.4%
