1/1/26

Dear Sirs/ PSC,

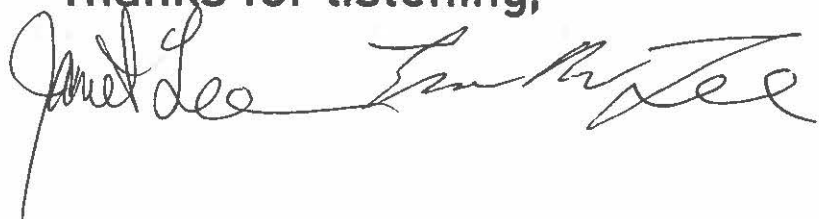

The letter we got from Bluegrass Water didn't arrive on the 12/11 date which they put at the top of the letter, so we only learned of this drastic change in the thick of all the holiday plans. Why do we only have "a month" to think about it"? So, we've only known about all this about 2 weeks at best.

So, ...our rates are planned to go up 46% more or less, and you want to know if anyone has objections....my question is who DOESN'T?

What other options do we have besides Bluegrass Water? Personally, it feels like we are over the barrel and have NO choice or real say. This is overwhelming and frustrating. We are retired missionaries and are on a very low fixed income. We cannot afford any price hike, especially one that is nearly a 50% increase!

I ask you to please take pause and really consider the negative impact this will have on all our lives here at Homestead.

Thanks for listening,

A handwritten signature in black ink, appearing to read "Janet Lee", followed by a long, horizontal, wavy line that extends across the bottom of the page.
