Re: Intervention Request
Case 2025-00354

I have lived at my current address (Calloway County) over 40 years in the Center Ridge Water District.

In May 2020 Bluegrass Water bought the water system from Center Ridge Water District for \$120,000.00

Our flat rate for water was \$22.79 on that date. This rate does not include sewer. Approximately four months later Bluegrass requested a rate increase to \$105.84 as I remember. The PSC approved a rate increase to \$77.63 under Case #2020-00290, over tripling our rates. A review of 2020 case will reveal the vote was 2 to 1 with Chairman Kent Chandler writing a strong dissent. I encourage the Commission to review Commissioner Chandler's dissent in Case #2020-00290.

We were treated unfairly in 2020.

On December 11, 2025, Bluegrass has again asked for another unfair, unjust and unreasonable rate increase.

This out of state company bought about 15 systems in Kentucky. I believe our system is the only "water only" purchase. I found expenses they claimed in 2020 that appeared to be inflated and questionable.

I am again asking the Public Service Commission to protect the citizens of Calloway County from this greedy utility company. Furthermore, I ask the Commission to lower the existing inflated rate of \$77.63 at its discretion.

All we are asking is to be treated fairly. Please reserve our right of intervention or objection to oppose this unfair rate increase.

Thank you for your consideration.

Phil Hazle
