Phone number to be reached [REDACTED]

Comments: Dear PSC: We are homeowners that live at 5604 Cutters Trace in Melbourne, KY 41059. On December 18, 2025, we received a letter in the mail from Bluegrass Water proposing a rate increase. We are currently paying Bluegrass Water \$ 60.00 per month for wastewater treatment. They are advocating raising this to \$ 114 .00 per month (which is a 90% increase). We believe that this is an unreasonable increase for services rendered. We understand that everything has price increases however a 90% increase is unreasonable. We are requesting an intervention by PSC since this increase is extremely large and should not be permitted.

Thank you for your consideration  
Sally & Simon Jewell
