Comments:

I'm a citizen in Scott county ky. Such an increase is ridiculous. We people with fixed incomes can not afford to pay this outrageous water bill a month. It has came down to where some of us living in Georgetown ky will have to sell their homes because the water and all other utilities are insane . But for citizens to pay as much as we do for water and can not even drink the water because of the taste and smell of it is crazy. I sincerely hope that the increase won't happen. We the people of Scott county have spoken the truth.

Comments:

I strongly oppose the rate increase. I get a GMWSS and a KY American Water bill every month as does everyone in my neighborhood (Elkhorn Green). I am paying on average \$160 a month for water/sewage and that is before the rate increase. With the rate increase it will be closer to \$210 a month. This is an obscene amount to pay for water! Families cannot afford this on top of the rise in everything else one needs to live. DO NOT RAISE RATES

Comments:

Im not one to complain often, especially not about Scott Co or Georgetown. I love it here, my family loves it here. Its a great community, one that has been suitable and hospitable to us. Its beautiful, and growing, with plenty of needs already met and continuing to be met with development.

However, if I were to complain about one thing, it would be the water. The water is hard and corrosive. Ive gone through hundreds of dollars of water filters since Ive lived here for one year. I find it insulting that the price for this hardly potable water is going up. Id be happy to pay more money if the water was worth more money. For a city and county that is as wealthy and developing as it is, the water is rural and underdeveloped at best. Please reconsider allowing the price for this subpar water to increase for Scott Co residents.

Thank you for your time.

Comments:

We are hard working families.. sewer alone should never cost \$100 per month when my water bill is only \$30. This is robbery.

Comments:

For the last five years everything has continually gotten more expensive. Wages are absolutely not keeping up with these increases, and its putting a major strain on the middle class and down. Please consider this when evaluating this absolutely insane price increase. Imagine if everything suddenly went up 41%. Wed almost all be bankrupt and homeless.
