Comments:

This case is not about providing safe water and sewage treatment to KY customers. It is about making a profit for rich investors who have given money to the two, possibly three holding companies. It is also about paying over a million dollars in annual salary/benefits to the top three executives. We in Equestrian Woods in Jessamine Co. have seen very little improvements in the last four years. A fence is only visible improvement. I do know that all four pumps have been replaced, the motor controls and the alarm systems have been upgraded to comply. The remote leach fields on leased property dont work and we frequently see are pump trucks emptying the four tanks.

The most worrisome issue yet to be addressed is they will be loosing the land the system operates on in May 2029 and the entire system must be removed and reclaimed so the landowner can develop a subdivision.
