RE: CASE NO. 2025-00109
Michael Terry vs. Powell's Valley Water District

To Whom It May Concern:

This is in response to the ORDER received from Kentucky Public Service Commission August 19, 2025 concerning CASE NO. 2025-00109, Michael Terry vs. Powell's Valley Water District. I will address each of Mike Terry's complaints separately in the hope to clear up all issues.

In answer to Mr. Terry's complaint stating "The water line was discussed with a representative from Powell's Valley Water District who instructed us to dig our water line across our neighbor's property and driveway."

I did not instruct Mr. Terry to dig across the neighbors property. Mr. Terry came to the office to complete a contract and pay for a meter tap and deposit on July 9, 2024. The contract was put into the business name Red River Development Group LLC. Enclosed please find a copy of the Contract for Water Service signed by Mr. Terry. I called Mr. Terry and informed him our main water line stopped well short of his property. He was informed that a meter box would be set where PVWD's main line ended but the meter box could be set on either side of the road. He was told he would be responsible for laying the water line from the meter box to the property/house. PVWD's rules and regulations set by the PSC, sheet 43 of PVWD's tariffs, AE. Water Main Extensions, #1 states:

"Normal extension. An extension of fifty (50) feet or less shall be made by a utility to its existing distribution main without charge for a prospective customer who shall apply for and contract to use service for one (1) year or more." Enclosed please find a copy of sheet 43 of PVWD's tariffs.

Powell County Judge Executive, Eddie Barnes, was at this location once due to a complaint from a neighbor. I did hear Mr. Barnes say Mr. Terry could lay along the county right-of-way if he got permission. The Powell County Judge Executive is not a part of PVWD.

Mr. Terry states that page 32 of the rules and regulations, paragraph 2 and 4 states, (2.) Obtaining easement and right-of-ways necessary to extend service will be the responsibility of the utility. (4.) Utility cannot require a prospective customer to obtain easements or right-of-way on property not owned by the prospective customer as a condition for providing service.

Mr. Terry left out a portion of sheet 32, #4 which continues: However, the cost of obtaining easements or right-of-way will be included in the total per foot cost of an extension, and will be apportioned among the utility and customer in accordance with the applicable extension administrative regulation.

This section of PVWD's rules and regulations set by the PSC, begins on sheet 31 of PVWD's tariffs, O. Access to Property continuing on sheet 32. Enclosed please find a copy of sheet 31 and sheet 32 of PVWD's tariffs. **This section is in relation to access to property of PVWD.** PVWD has an easement along county right-of-ways which is where the meter box was installed. An easement was not required to set the meter box. From the meter box on is the customer's responsibility including any easements needed to run their service line. Also this can not be a line extension as PVWD is currently on a line extension ban in that area. Enclosed please find a copy of PVWD's July 11, 2022 minutes.

Mr. Terry also states his complaint regarding the water company's refusal to extend the distribution system to their property, as mentioned on page 36, section V.1. of the Powell's Valley Water District Rules and Regulations.

PVWD's Rules and Regulations set by the PSC, sheet 36 of PVWD's tariffs, V. Service Lines & Connections. # 1 states:

"The utility will furnish and install at its own expense for the purpose of connecting its distribution system to the customer's premises that portion of the service connection from its main to and including the meter and meter box. The utility will recoup the expenses from the customer in accordance with KRS 278.0152." Enclosed please find a copy of sheet 36 of PVWD's tariffs.

Please note this section states "The utility will furnish and install at its own expense for the **purpose** of connecting its distribution system to the customer's premises..." Continuing with PVWD's Rules and Regulations set by the PSC, sheet 36 of PVWD's tariffs, V. Service Lines & Connections. #2 states:

"In areas where the distribution system follows well-defined streets and roads, the customer's point of service will be located at that point on or near the street right-of-way or property line most accessible to the utility from its distribution system. In areas where the distribution system does not follow streets and roads, the point of service will be located as near the customer's property line as practicable. Prior to installation of the meter the utility will consult with the customer as to the most practical location." Enclosed please find a copy of sheet 36 of PVWD's tariffs.

It does not state that PVWD will run the line to said property, as stated by Mr. Terry.

PVWD is a rural utility with limited funds. If the District was required to run lines to all customers' property that wanted service, we would be doing line extensions into developments and running miles of line for anyone who signs up for water service. Again, we are on a line extension ban in that area. Enclosed please find a copy of PVWD's July 11, 2022 minutes.

Note sheet 36 of PVWD's tariffs, V. Service Lines and Connections. #2 second sentence states "In areas where the distribution system does not follow streets and roads, the point of service will be located as near the customer's property line as practicable." This is what PVWD did. As Mr. Terry states, PVWD's main line stops 230 ft before his property. Enclosed please find a copy of the map that was supplied by Mr. Terry.

PVWD's Rules and Regulations set by the PSC, sheet 36 of PVWD's tariffs, V. Service Lines & Connections, continues on sheet 37 of PVWD's tariffs #5 states:

"The applicant/customer must furnish and lay the necessary pipe to make the connection from the point of service to the point of usage and **be financially responsible for all costs associated with the installation and maintenance of his/her service line plumbing**, including a shut-off valve and one-way check valve, installed on his/her property beginning at the outlet side of the water meter. The service line must be kept in good repair and in accordance with utility and Public Service Commission rules and regulations." Enclosed please find a copy of sheet 37 of PVWD's tariffs.

PVWD does not deny anyone service that follows our rules and regulations. Mr. Terry lodged this complaint after installing and covering up the service line to his property. In one spot I uncovered by hand, the line he laid was less than 6" deep. He was informed his line would have to be exposed and laid to PVWD's guidelines.

Mr. Terry has or had a partner on this project. After the complaint was filed, Mr. Rose, Mr. Terry's partner, rented a hoe ram, busted out the rock, and installed the service line to depth. The account was activated on April 25, 2025 so the residence does have water service. Due to this, I am not sure what Mr. Terry is expecting now. One of PVWD's customers who is a neighbor of Mr. Terry is an additional several hundred ft past his property. This customer's meter box sits at the end of PVWD's main line across the road from Mr. Terry's meter box.

I feel certain once the PSC reviews the areas pointed out, reading the complete sections of PVWD's tariffs and not just the certain highlighted partial sentences stated in Mr. Terry's complaint, the PSC will see PVWD has done everything according to the guidelines the PSC has set for us.

Sincerely,

Randy Ledford
Superintendent

cc: Michael Terry

CONTRACT FOR WATER SERVICE

Account # [REDACTED]

Location house - 200mg

Remit to: P.O. Box 1954
Stanton

Other Adults Living at this Location: _____

☒ Owner

☐ Renter

☐ Tax Exemption

Name of Owner _____

☐ Main Residence

☐ Vacation Rental

☐ Commercial Property

This contract made and entered into this 9 day of July 2014

between Red River Development Group LLC whose

social security numb

whose

telephone number is [REDACTED]

whose

service address is 1182 Duncannon Bend Rd

The party of the FIRST PART and Powell's Valley Water District, party of the SECOND PART.

The party of the FIRST PART agrees to connect to Powell's Valley Water District, party of the SECOND PART. The FIRST PART agrees to pay a tap fee/service call fee of \$ 1445.00 and a deposit of \$ 68.00. All dollar amounts are due at the time of signing this contract, unless the FIRST PART uses the option to make meter payment arrangements on a new meter tap. If so, a Meter Tap and Deposit Instalment Agreement Form is required. The FIRST PART will pay on demand \$ 1513.00.

Initial: MT

The water rates will be reasonable and approved by the Public Service Commission (P.S.C.). It is understood and agreed that the party of the SECOND PART services the right to determine the size of service line connection to be used to supply water to the party of the FIRST PART. A 5/8"x3/4" meter will be used unless the party of the FIRST PART contracts for a larger meter. A SEPARATE METER SHALL BE REQUIRED FOR EACH RESIDENCE. A SEPARATE METER AND CONTRACT SHALL BE REQUIRED FOR EACH TRAILER IN A TRAILER PARK.

The party of the FIRST PART agrees to permit the Powell's Valley Water District to repair, remove and disconnect a service line and meter. Also, to read meters at a point on the customer's property to be designated by the District each signed connection with right of ingress and egress for these purposes over customer's property.

The party of the FIRST PART agrees to install and maintain at his/her own expense a service line that shall begin at the meter box and extend to the dwelling or place of business and other portion on his/her premises and agrees to repair leaks within a timely manner within one billing cycle.

The party of the FIRST PART should call or come by the office if a water bill has not been received by the 5th of each month.

If turned off for non-payment, once the balance is received in full the district has 24 hours to restore water service.

I UNDERSTAND IT IS MY RESPONSIBILITY to notify the district to close my account out.

I have read and understand the terms of service with Powell's Valley Water District.

REGULATIONS FOR A NEW WATER METER SERVICE

1. You are required to have a **Service Address**. If you do not have a current service address you must call the **County Judge's Office 606 663-2834** or **call Dispatch 606 663-4116** to be assigned a **911- service address**.
2. State law requires a call be made to **811** to have underground lines located. Correct service location must be provided on your contract to give accurate road directions to your area. A **Confirmation Number** and a **tentative date** is given at the end of the **811** call. Unless otherwise notified, the contractor who will be doing the meter tap will make the call to **811**.
3. A **¾"** service line of at least **200 PSI** is required.
4. A **shut off valve**, located directly on your side of the meter and at your house or trailer with easy access to it is required.
5. The service line is to be at least **30"** deep.
6. No galvanized fittings.
7. No cross connections. (meaning wells, cisterns or other sources of water cannot be hooked into the same line(s) or watering system as served by Powell's Valley Water District).
8. **Ditches** are to be left open to be inspected by an employee of Powell's Valley Water District before being backfilled.
9. We must have a copy of a valid **Kentucky State Plumbing Permit** in accordance with **KRS 3183165** or a **Farm Exemption Permit** if you own more than 10 acres. **Monroe Brown**, the **Plumbing Inspector**, is in on **Thursdays 8:00 a.m. to 9:30 a.m.** at the **Stanton Health Department**. Website <https://ky.govportal.com> If you use the website, you are required to call to set up the inspection.
10. Powell's Valley Water District has up to 30 working days to set a meter box.
11. Check Valve (Back Flow Preventer) is required.

******Powell's Valley Water District allows only one customer per meter******

Your water meter will be read by the 15th of each month. Should you wish to read your own meter the diagram below may help you understand how to read it. If you read your own meter, your monthly meter reading must be received by the 15th of each month.

THIS IS A SLOW LEAK INDICATOR
IT WILL TURN 25 TIMES PER
GALLON OF WATER.

THIS METER READS FOUR HUNDRED-FOURTEEN THOUSAND ONE HUNDRED FORTY GALLONS.

RULES AND REGULATIONS

AD. Requirements for New Water Connections.

1. The water line must be buried in a ditch that is at a minimum of 24 inches in depth.
2. The water line must be a minimum of 200 psi
3. A shut-off valve must be installed.
4. A one-way check valve must be installed.
5. A pressure regulator may be required as prescribed by the utility.
6. There shall be absolutely no galvanized pipe or fittings used in the installation.
7. The water line must be visually inspected by the utility.
8. If a well is being used, it must be disconnected and the utility must inspect to verify separation.

AE. Water Main Extensions

1. Normal extension. An extension of fifty (50) feet or less shall be made by a utility to its existing distribution main without charge for a prospective customer who shall apply for and contract to use service for one (1) year or more.
2. Other extensions.
 - a) When an extension of the utility's main to serve an applicant or group of applicants amounts to more than fifty (50) feet per applicant, the utility may require the total cost of the excessive footage over fifty (50) feet per applicant/customer to be deposited with the utility by the applicant or the applicants, based on the average estimated cost per foot of the total extension.

meter; and the meter constant. The complete record of tests of each meter will be continuous for at least two (2) periodic test periods and will in no case be less than two (2) years.

2. The utility will keep numerically arranged and properly classified records for each meter owned, used and inventoried by the utility. The identification number, date of purchase, name of manufacturer, serial number, type, rating, and name and address of each customer on whose premises the meter has been in service with date of installation and removal will be included in the records. These records will also contain condensed information concerning all tests and adjustments including dates and general results of such adjustments. The records will reflect the date of the last test and indicate the proper date for the next periodic test required by the applicable Public Service Commission rule and/or regulation.
3. Upon completion of adjustment and test of any meter pursuant to Public Service Commission rules and regulations, the utility will affix to the meter a suitable seal in such a manner that adjustments or registration of the meter cannot be altered without breaking the seal.

N. Customer Requested Meter Tests.

1. The utility will make a test of any meter upon written request of any customer if the request is not made more frequently than once every twelve- (12) months. The customer shall be given the opportunity to be present at the requested test. If the test shows that the meter was not more than two (2) percent fast, the utility will make a reasonable charge for the test, the amount being approved by the Public Service Commission and set out in the utility's tariff.
2. After having first obtained a test from the utility, any customer of the utility may request a meter test by the Public Service Commission upon written application. Such request shall not be made more frequently on one (1) meter than once every twelve- (12) months.

O. Access to Property.

RULES AND REGULATIONS

1. The utility shall at all reasonable hours have access to meters, service connections, and other property owned by it and located on customer's premises for purposes of installation, maintenance, meter reading, operation, replacement or removal of its property at the time service is terminated. Any employee of the utility whose duties require him/her to enter the customer's premises will wear a distinguishing uniform or other insignia identifying him/her as an employee of the utility, or show a badge or other identification which will identify him/her as an employee.
 2. Obtaining easements and right-of-ways necessary to extend service will be the responsibility of the utility.
 3. All customers must grant, convey, or cause to be granted or conveyed to the utility a perpetual easement and right-of-way across any property owned or controlled by the customer wherever necessary for the utility's facilities in order to provide service.
 4. The utility cannot require a prospective customer to obtain easements or rights-of-way on property not owned by the prospective customer as a condition for providing service. However, the cost of obtaining easements or rights-of-way will be included in the total per foot cost of an extension, and will be apportioned among the utility and customer in accordance with the applicable extension administrative regulation.
- P. Location of Records. All records required by Public Service Commission rules and regulations will be kept in the office of the utility and will be made available to representatives, agents or staff of the Public Service Commission upon reasonable notice at all reasonable hours.
- Q. Safety Program. The utility will adopt and execute a safety program, appropriate to the size and type of its operations. At a minimum, the safety program will:
1. Establish a safety manual with written guidelines for safe working practices and procedures to be followed by utility employees.

Powell's Valley Water District

31 ADAMS RIDGE ROAD • P.O. BOX 550 • CLAY CITY, KENTUCKY 40312 • 606 663-5870
THIS INSTITUTION IS AN EQUAL OPPORTUNITY EMPLOYER AND PROVIDER

The Powell's Valley Water District Board of Commissioners held their regular monthly meeting at the district office located 31 Adams Ridge Rd on Monday July 11, 2022 at 9:00 am.

Chairman Stephen Everman, Commissioner Babe Howard, Secretary/Treasurer Paul Shawn Skidmore, Superintendent Kendell Knox, Bookkeeper Ashley Hood, Engineer Scott Taylor.

Chairman Stephen Everman brought meeting to order.

Ashley Hood stated the June 2022 financial information wasn't ready for review due to the office being closed for the 4th of July holiday, also Office Clerk Kristina Kellogg's child was sick with covid so she helped Dawn keep the front office on task because of the short week and late charges. June 2022 financial information will be ready for review in August 2022 Board meeting.

Ashley Hood stated office clerk Kristina Kellogg's son is now sick with covid, in case something happens she has to be off to take her children to the dr she will not have sick or vacation time to use for time off. Motion was made to approve time off if needed in the event she has to take her children to the dr by Commissioner Babe Howard, 2nd by Chairman Stephen Everman.

Ashley Hood presented June 2022 minutes for review, motion was made to accept the June 2022 minutes by Chairman Stephen Everman, 2nd by Secretary/Treasurer Paul Shawn Skidmore.

Scott Taylor Engineer presented the Board of Commissioners with the RD Application. Chairman Stephen Everman signed where needed within the application. Superintendent Kendell Knox was given permission by the Board of Commissioners to sign all documents from here forward for anything RD needed. Motion was made to accept the resolution of the application by Secretary/Treasurer Paul Shawn Skidmore, 2nd Chairman Stephen Everman.

Scott Taylor stated since the district received the funds to start designing the new building, we are now ready to have it approved to begin the design. Motion was made to begin the design of the building by Secretary/Treasurer Paul Shawn Skidmore, 2nd Chairman Stephen Everman.

Scott Taylor stated we have 3 projects in front of RD at this time, we are just waiting for approval.

Superintendent Kendell Knox stated we needed to see about getting more water supply. Scott Taylor presented maps from surrounding areas showing the water supply that we could possibly receive. Superintendent Kendell Knox stated we needed to see if we could get water supply from Stanton Water before trying another entity. Superintendent Kendell Knox and Scott Taylor will meet with the Stanton Water Commission and see how they are on water supply to see if maybe they can supply the district with more water. If something comes up, they will meet with other entities to see about receiving water from them.

Superintendent Kendell Knox stated we needed to see about putting a ban on line extensions from Happy Top Rd forward due to not having enough water supply at this time. Motion was made to ban line extensions pending until we can find more water source by Secretary/Treasurer Paul Shawn Skidmore, 2nd Commissioner Babe Howard.

Superintendent Kendell Knox stated his company truck was down at this time. He took it to Kentucky Auto Parts this morning and dropped it off for them to look at it. They told him it would need the motor replaced. Also told him that it would be cheaper to replace the motor instead of buying different parts to try and fix the one it has in it. Superintendent Kendell Knox asked the Board of Commissioners if they would want to replace the motor or lease another vehicle. Motion was made to replace motor in the truck by Secretary/Treasurer Paul Shawn Skidmore, 2nd Chairman Stephen Everman.

Superintendent Kendell Knox stated to the board if they would want to lease out another truck while his truck was down or pay him mileage and him use his personal truck for work use. Superintendent Kendell Knox stated he has transferred all his tools, etc into his personal truck. Motion was made to pay Superintendent Kendell Knox mileage while his truck was down by Secretary/Treasurer Paul Shawn Skidmore, 2nd Chairman Stephen Everman.

With no other business Chairman Stephen Everman adjourned the meeting.

RULES AND REGULATIONS

pressure at the customer's service pipe under normal conditions fall below thirty- (30) psig nor will the static pressure exceed 150 psig.

2. Pressure surveys. At least once a year the utility will make a survey of pressures in its distribution system of sufficient magnitude to indicate the quality of service being rendered at representative points in its system. Pressure charts for these surveys will show the date and time of beginning and end of the test and the location at which the test was made. Records of these pressure surveys will be maintained at the utility's office and will be made available to the Public Service Commission upon request.

V. Service Lines & Connections.

1. The utility will furnish and install at its own expense for the purpose of connecting its distribution system to the customer's premises that portion of the service connection from its main to and including the meter and meter box. The utility will recoup this expense from the customer in accordance with KRS 278.0152.
2. In areas where the distribution system follows well-defined streets and roads, the customer's point of service will be located at that point on or near the street right-of-way or property line most accessible to the utility from its distribution system. In areas where the distribution system does not follow streets and roads, the point of service will be located as near the customer's property line as practicable. Prior to installation of the meter the utility will consult with the customer as to the most practical location.
3. Depth of service line. All service lines must be laid at a sufficient depth (a minimum of 24 inches) to prevent freezing during the coldest weather normally experienced except where services are not intended for use during freezing weather and are actually drained during such periods.

RULES AND REGULATIONS

4. A plumbing permit from the appropriate regulatory agency is required before the utility can set the meter.
5. The applicant/customer must furnish and lay the necessary pipe to make the connection from the point of service to the point of usage and be financially responsible for all costs associated with the installation and maintenance of his/her service line plumbing, including a shut-off valve and one-way check valve, installed on his/her property beginning at the outlet side of the water meter. The service line must be kept in good repair and in accordance with utility and Public Service Commission rules and regulations.
6. The installation and maintenance of the water service line must be in accordance with the rules and regulations of the Kentucky Department of Health.
7. A cross-connection of the utility's system with any other source is strictly prohibited.
8. A well that has or is being used on the premises must be inspected by utility personnel to verify disconnection and separation.
9. All service lines on the customer's side of the meter must consist of copper or PVC pipe with a rating of no less than 200 psi, and should not be less than 3/4 inches.
10. Absolutely no galvanized pipe or fittings can be used in the installation.
11. The utility will not set a meter on a customer's service line at a point that does not deliver 30 psig at the meter.
12. If the applicant/customer's point of usage is at a higher elevation than the meter, the customer should consult with a reputable engineering firm to properly size the service line from the meter to the point of usage.
13. Should an applicant/customer desire a higher pressure due to location or other need, provisions must be made by the applicant for an individual pressure booster system. The
