**Subject:** LG&E Rate Increase - Case No 2025-00114

Hello,

The residential rate increase of 9.49% seems a bit high. However, the almost 50% cut in metering rate is ridiculous.

Currently, LG&E is charging us \$0.10838 per kWh, and they are increasing the rate to \$0.11867 per kWh - a 9.49% increase. This is higher than the yearly inflation.

However, on their net-metering service (NMS-2), they are currently paying \$0.07089 per kWh in credit. They are proposing \$0.03786 per kWh. This is a 47% decrease. This is absurd!!

I would like to know the justification for this massive decrease. We are generating more electricity with our solar panels, which is being directed to the increasing demand. We should be fairly compensated for our investment. I'm not asking for a 1-1 payment, but charging us \$0.11 per kWh and only giving us \$0.03 in return is absurd.

Sincerely,

Tobin Reed

La Grange, Ky

**Subject:** Case No. 2025-00114

I wanted to note that this increase for my home is going to be 25% more than usual. I do not agree that this is the best solution for my community. The cost of living is changing daily and minimum wage is still only \$7.25 per hour but the living wage needed for a single adult in Louisville Jefferson County is \$21.70 per "the MIT Living Wage Calculator estimates". This compounded with lack of affordable housing, it will create an even heavier burden on many. The resources are slim and I feel that there are better ways to get this money than putting it on the backs of the community who are already stretched so thin. Crime and theft is at an all time high and people will do what they think they need to do to survive. It's sad that I found this letter in my bill but have not heard much or advertising such so the people as a whole could be better notified. When it's not transparent, it seems shady!

Thank you,

SunShine Sullivan

Please DO NOT grant any increase as the company has generated record profits to it's shareholders.

Electric increase of ~10% and Gas increase of ~15% is outrageous.

As a senior citizen how can ends me met.

Regards  
Brendan P Cullen

**To:** PSC Public Information Officer <[PSC.Info@ky.gov](mailto:PSC.Info@ky.gov)>  
**Subject:** Case No 2025-00114

Dear Commissioners,

I'm writing to strongly oppose LG&E's proposed rate increases for electric and gas service. As a customer with multiple accounts this affects me personally at my home and business. In 2024, PPL reported revenue for the quarter ending March 31, 2025 was **\$2.504B**, a **8.68% increase** year-over-year, yet they're now seeking an additional **\$83 million** from ratepayers. Their requested increase of 8.3% for power and 14% for gas are far out of line.

Families across Kentucky are already stretched thin with rising costs. LG&E should be expected to operate within its existing means—just like the customers it serves—instead of passing more costs onto households. If its a must, a more manageable increase should be done, not such a drastic amount.

Rather than raising rates, LG&E should focus on cost-cutting, efficiency, and prioritizing

investments that benefit customers, not just shareholders.

Please deny this request and hold LG&E accountable for living within its budget.

Sincerely,

Brian T Chism

Concerned Rate Payer
