Re: Case No. 2025-00114 – Request for Intervention (Late Submission)

Dear Commissioners:

Pursuant to the notice published regarding Case No. 2025-00114, I respectfully submit this written request to intervene in the matter of the proposed rate increase by Louisville Gas and Electric Company (LG&E).

I am a residential customer of LG&E and would be directly and adversely affected by the proposed rate increase. As a utility customer, any rise in gas and electric rates would place an added financial burden on my household, especially during a time when the cost of essential goods and services has already significantly increased.

I respectfully request that the Commission accept this intervention request despite it being submitted after the 30-day deadline. I only recently became aware of the proposed rate change and its potential impact on my household. I believe my participation as a concerned ratepayer would contribute meaningfully to the fairness and completeness of the proceeding.

I believe that the proposed rate increase is not justified given the economic pressures that many individuals and families across Kentucky are facing. I request the opportunity to participate in this case as an intervenor, to ensure that the concerns of ordinary ratepayers are fairly represented and considered.

Thank you for your attention to this request. I ask that you grant my intervention and provide all necessary notices and communications related to this case.

Sincerely,

Juan Manuel Mario Rodríguez García
