State the nature of your concern: We have recently learned of a request to raise rates for

our electrical service. Records should show that we have power outages in a small span that affects about 58 customers on a regular basis. We have discussed the issues with representatives at Clark Energy. We do not feel that we are being serviced properly under the current rates and ask that an increase not be granted. As we write this on a Saturday morning, August 23, 2025, our power is out. No weather issues whatsoever. This happens way too often.

Have you contacted the utility about the problem: Yes
