Comments:

Kentucky Power has continued to raise their rates and are once again seeking a rate increase. I have many family members and friends who are unable to afford their electric bills at the current rate. Human beings should not have to live in discomfort, or even unhealthy temperatures in their homes (too hot or too cold) in an effort to keep the costs down, only to open their electric bill and be bombarded with an outlandish bill. I live just outside St Louis, MO and I can keep my home as warm or cold as I need / want and do not have to worry about how I am going to pay it. And these are given very similar factors to those in KY (well insulated homes, energy conservation measures such as LED lights, washing and drying at night, turning off lights when not in use, etc). Please intervene and help lower the costs of electricity in Eastern Kentucky! Kentucky Power has a monopoly on this population of people by being the only electric source they have access to. If another company was able to come in and be competitive in rates I GUARANTEE Kentucky Power would be able to lower their rates while still maintaining high profit margins! This is ridiculous and so unsafe for the people who have Kentucky Power as their power source. Please do something. And I havent even began to talk about those on a very fixed budget.
