Comments:

To whom it may concern;

My name is Lee Miles and I live in a portion of the area that Green River Valley water company has recently purchased from Edmonson county water. I writing this not out of concern but simply because I am very happy and overjoyed of the recent changes of the quality of our water since Green River has been supplying to us. As an elected official (magistrate) of this area I have taken several concerns over the past several years of the quality of water we previously had supplied to us and the conditions which the water treatment plant was in. Since being acquired by Green River and the implementations that have been done our water quality is phenomenal. I have been contacted with nothing but praise on the difference in a such short time frame. Not only the quality of water but the communication of the staff has been outstanding. My hats off to all the hard work and dedication of everyone involved to ensure we have safe and great tasting water that goes from the water source to each of our homes safely. Thank you for your time.
