Comments:

To the Commisioners on the PSC, the Airview neighborhood would like to know why we are having to deal with a greedy private sewer company when there are 2, not 1 but 2 municipal hookups that we could join. How did this happen? We want answers. We were forced into this situation and its time we got out of it. Most of the people in this neighborhood cannot afford the sewer payment of 77 dollars it is literally taking food off of peoples tables, dont you care about that? And then we receive threatening letters from this greedy sewer company saying they will cap our sewer if we dont pay....strong arming us into scraping whatever money we can find to satisfy their million dollar paychecks. This needs to stop now. You are supposed to protect us from companies like this. You need to be like California and tighten your requirements to purchase these systems. Bluegrass pulled out of California because they were going to have to actually invest real money in the systems they were trying to purchase and that on paper crap doesnt fly with them and it shouldnt fly with you either. You are literally making it impossible to sell our homes and impossible to even buy food for some folks. How does that make you feel? I can tell you how it makes us feel!! Please investigate this company THOUROUGHLY before you let them raise rates or purchase any more systems. They dont take care of the ones they have and the fact is they have not done one thing to ours. We smell the sewer every day. How would you like that? And then how would you like it when nothing gets done about it? Customers in other states have brown water and nothing getting done about it. They have way too many boil advisories and way too often. They are not fixing anything for any of these systems and yet they keep getting to purchase even more. This is a monopoly and nobody is winning except Josiah Cox and his cronies. Please put a stop to them now because you dont even know the half of it.
