Comments:

I attended the public meeting earlier this week and I am 100% in favor of the data center coming into our community in the exact geographical location that it is coming. The company will add jobs to the community that were lost when Century left and remediate the extensive environmental MESS that aluminum smelting has left on the site. I see it as a tremendous environmental win. I am excited to see how this will change our community for the better for the long term.
