Response to Notice

8-3-26

I received a Notice from East Clark County Water District.

They Want to Increase rates, which are already high, compared to Winchester Water prices and prices we had for Water in Woodford County.

The increase they want is NOT acceptable. They want a 19.61% to 19.63% rate increase which is not affordable to the general Public, which only get a 2% raise in income each year, if lucky enough.

Between high grocery prices, electric prices & gas prices, people cannot afford any more price increases. This must be put under control, especially since the water quality here is not as good as Woodford County's water quality was, at a cheaper price. We are in the Country & have a farm and pool. Son & family live here too.

Please Deny this exorbitant increase!

Sincerely

7980 Mount Sterling Rd

NOTICE

Notice is hereby given that East Clark County Water District expects to file an application with the Public Service Commission on or about July 31, 2026, seeking approval of a proposed adjustment to its rates for water service. The proposed rates shall not become effective until the Public Service Commission has issued an order approving these rates or six (6) months from the date of the filing of the application, whichever occurs first.
