

Dear PSC.

Case #
2026-00227 Notes

NO Increase

I am a Customer to the Breathitt Co. Water System and I am writing to you to ask to not increase or approve of a water increase in January of this year. I am a family of two and it might not seem like alot now but what i do pay right now is a struggle from other day to day bills to pay each month if you all increase the bill it's going to make it to were i don't know how I'm going to afford it. I'm a house cleaner i don't make a lot of money as it already is it's always a constant worry about a bill now this!! I live out in the country the water is always brown smells horrible like eggs. Please help us out b/ not doing another water increase. If it keeps going up I really don't know how people can even pay for water.
