Dear PSC.

NO Increase.

I am a customer to the Breathitt Co. Water System and I am writing to you to ask that you please do not approve of a water increase we already had a water increase in January of this year. I am a family of 3 and my water bill is around 150 to 179, I don't understand even how it can be that high and it is really hard for us to pay. My husband gets Early disability Social Security and I am a house cleaner, so we do not make a lot and to keep paying just for everyday necessities keep getting harder. We live out in the County so the water isn't even the best, smells really bad and sometimes is dirty looking, we can't drink it as is. Please help us out by not doing another water increase. Please look into actually helping us.

Melissa Collins.  
Breathitt Co. Citizen.
