Objection To Proposed Water Rate
Case no.: 2026-00227

RECEIVED

SEP 29 2026

PUBLIC SERVICE
COMMISSION

Dear Members of the Commission

We are writing to formally express our deep concern and strong opposition to the proposed increase in my water utility rates.

As a resident and ratepayer, the mounting cost of basic necessities has already stretched my household budget to its absolute limit. Families across our community are facing compounding financial pressures. We are already paying significantly higher cost for electricity, home heating/gas, and essential groceries just to get through the week.

Adding a higher water bill on top of these skyrocketing expenses creates an unsustainable burden. Clean water is a basic human necessity, not a luxury, and rate increases hit fixed-income households, working families, and seniors the hardest.

I urge the Public Service Commission to act as a true consumer watchdog for Kentucky residents. Please carefully scrutinize this proposed rate hike,

demand fiscal responsibility and efficiency from the utility providers, and reject any increases that place an unnecessary hardship on already struggling consumers.

Thank you for your time, consideration, and service to the people of Kentucky

Sincerely,

Billy and Charlene Napier
