FOR REVISIONS TO THE RESIDENTIAL	)	2026-00163
ELECTRIC VEHICLE OFF-PEAK CHARGING	)	
PROGRAM	)	

COMMISSION STAFF'S FIRST REQUEST FOR INFORMATION
TO EAST KENTUCKY POWER COOPERATIVE, INC.

East Kentucky Power Cooperative, Inc. (EKPC), pursuant to 807 KAR 5:001, shall file with the Commission an electronic version of the following information. The information requested is due on July 30, 2026. The Commission directs EKPC to the Commission's July 22, 2021 Order in Case No. 2020-00085¹ regarding filings with the Commission. Electronic documents shall be in portable document format (PDF), shall be searchable, and shall be appropriately bookmarked.

Each response shall include the question to which the response is made and shall include the name of the witness responsible for responding to the questions related to the information provided. Each response shall be answered under oath or, for representatives of a public or private corporation or a partnership or association or a governmental agency, be accompanied by a signed certification of the preparer or the

¹ Case No. 2020-00085, *Electronic Emergency Docket Related to the Novel Coronavirus COVID-19* (Ky. PSC July 22, 2021), Order (in which the Commission ordered that for case filings made on and after March 16, 2020, filers are NOT required to file the original physical copies of the filings required by 807 KAR 5:001, Section 8).

person supervising the preparation of the response on behalf of the entity that the response is true and accurate to the best of that person's knowledge, information, and belief formed after a reasonable inquiry.

EKPC shall make timely amendment to any prior response if EKPC obtains information that indicates the response was incorrect or incomplete when made or, though correct or complete when made, is now incorrect or incomplete in any material respect.

For any request to which EKPC fails or refuses to furnish all or part of the requested information, EKPC shall provide a written explanation of the specific grounds for its failure to completely and precisely respond.

Careful attention shall be given to copied and scanned material to ensure that it is legible. When the requested information has been previously provided in this proceeding in the requested format, reference may be made to the specific location of that information in responding to this request. When applicable, the requested information shall be separately provided for total company operations and jurisdictional operations. When filing a paper containing personal information, EKPC shall, in accordance with 807 KAR 5:001, Section 4(10), encrypt or redact the paper so that personal information cannot be read.

1. Refer to EKPC's response to Commission Staff's First Request for Information (Staff's First Request) in Case No. 2022-00439,² Item 5d.

² Case No. 2022-00439, *Electronic Tariff Filing of East Kentucky Power Cooperative, Inc. to Implement a Residential Electric Vehicle Off-Peak Charging Pilot Program* (filed Mar. 1, 2023), EKPC's Response to Commission Staff's First Request for Information.

a. Provide a justification analysis that outlines the calculation of the \$0.02 per kWh incentive.

b. Confirm whether EKPC has performed additional analysis on the \$0.02 per kWh incentive since the referenced response was filed. If confirmed, provide any additional analysis including all work papers related to the analysis.

c. Explain whether the \$0.02 per kWh incentive is still reasonable given recent changes in the per kWh energy charge per Owner-Member.

d. Explain whether an incentive calculated based on avoided energy and avoided capacity costs aligned with off-peak charging would incentivize participating customers more effectively.

2. Refer to the proposed Rate REV tariff. Refer also to the current effective tariff, Tariff Sheet No. 35, Second Revised Sheet No. 55 and 56, DSM Pilot. Under the program incentive section, the current tariff states that EKPC will provide \$0.01 per kWh credit in addition to the Owner-Member's \$0.01 per kWh credit, totaling \$0.02 per kWh incentive. The proposed tariff states that EKPC will provide the \$0.02 per kWh incentive to be passed through the Owner-Member to the end-use customer.

a. Explain the logic and reasoning behind EKPC providing the entirety of the incentive.

b. Explain any possible administrative impacts to EKPC and its Owner-Members caused by EKPC providing the entirety of the incentive.

c. Explain how the Owner-Member's will notify EKPC of the amount of per kWh incentives necessary to credit back participating customers in line with the billing cycle.

3. Provide historical participant data for each Owner-Member that outlines the amount of credit to customers' bills on a monthly basis from the implementation of the program until the filing of the proposed tariff in Excel spreadsheet format with all formulas, columns, and rows unprotected and fully accessible.

4. Refer to the proposed Rate REV tariff. Refer also to the current effective tariff, Tariff Sheet No. 35, Second Revised Sheet No. 55 and 56, DSM Pilot. Explain why EKPC proposed to shift the Residential Electric Vehicle Off-Peak Charging Program from a Demand-Side Management Program to a rate Adjustment Clause or Rider.
