I just realized i had previously said that the Martin County Water district had dug up Blacklog creek on May 3rd 2025. That was a mistake on my part. It was actually June 3 of 2025 . Sorry for the confusion. Thank you. Please let me know if there are any updates or information needed for the case .

Martin county water district placed their excavator directly into the creek located on Rt. [40 Blacklog Rd. 3320 Inez, Ky](#). Disturbing water flow for approximately half a mile. I have video evidence and Facebook post to prove it. Having trouble submitting it. They did not have the proper permits to place excavator equipment into the creek. May 3 rd 2025.
