Comments:

We are very concerned about how a 1500 sq foot home can generally have electric bills between \$300-\$450. Thats not including the months that we have the holiday decorations up. We keep our thermostat at 73 during the day and 71 at night during the summer and 69 both day and night during winter months. Our bill has continued to increase since we bought the home in 2018. Other family members who are under another Electric company pay half of what we pay and have bigger homes. We would appreciate someone coming to our home and explaining to us what in our home is using all this electricity.
