Subject: Case # 2026-00191

Dear Kpc I now realize the importance of the pressure tickets sewer has entered signed documents pressure ticket dated Oct 15 . 2025 my son's birthday..I never signed a document on this date. Especially after 2024 when I started documentation of Water Church South Eastern Water association non- profits deception and fraudulent behaviors already. It's seems to be a fabrication of two different documents to me. More reason not to dismiss in secrecy. 7799 other members belong to this church 🏠

Hello there I was on vacation, I am home now hopefully it is not too late to send supplemental information pertaining to case 26-00191. After receiving their answers to both consumers & formal complaints only 2 days in mail prior to my rebuttal deadline there are many false statements and factual dates & addresses falsely stated in writing I wish to make this commission aware of trying to mislead this commission into a quick and private dismissal of our other 7799 members deserve to know just how our water church operates. Thank you Kpc commission
