Here's the time stamped photos from 10/13/2025 of my arrival in Ohio about to cross the Ohio river.. until 10/19/2025, for my son's 45 birthday celebration 🎂 a traditional yearly celebration. The second photo is a time stamped photo back in pulaski county Kentucky on 10/19/2025

checking ✔ on tower after my trip to Ohio. This is when I discovered my 3rd meter was set in stealth. Not knowing the exact date, it was set, I called Morris Vaughn personally @Sew church and told him if computer generated bills started up we where going to have a serious problem. Totally unaware of the phantom billing scheme from 2008-2009 at this time .THAT October 15 2025 signed pressure ticket is a forgery and indentiy theft.

I was in Cincinnati Ohio. 0ct13-19/2025...celebrating with family..

Here's another concealed & unsigned/ undated pressure ticket 60 lbs .. I have never seen before until S.e.w water church's Lexington law firm used it to mislead the commission in

💧 S.E.W. defense again .. continuing deception and record suppression ,similar to the multiple statements in answers to commission concerning S.E.WATERs water tower infrastructure being on Blue John Road like my farm farm, false again. S.E.WATER' s infrastructure is on(county rd.) HURST HILL RD Like their own documents from 2005 statements to this commission show in 2005 . NOW in 2026 S.E.W. association are claiming multiple times it is on Blue John Road 💧 very misleading and factually false.

Clarification & investigation by this commission is warranted for all 7800 members of our water church .

Thank you Michael Hemphill
