Clearly Morris Vaughn general manager of this association is involved in this 2 decades old Alleged to commission..

non- profit corporate cover up to hide the truth 🤔

2006-00371 might be closed but there remain many unanswered questions concerning U.S.D.A. funding applications like location information .this is the very U.S.E.D. department of the United States us who originally placed the monuments in 1935 to protect my family farm corners 1357walker #1 & #2 .

At Luther Farmer request to protect his land from the government itself in 1935... not like stated by Sewater in 1936.. on legal answers to this commission.

RE: Case No. 2006-00371
Reminder Letter

The Commission entered the enclosed Final Order in this case on August 29, 2006. It was ordered that "Southeastern shall notify the Commission one week prior to the actual start of construction and at the 50 percent completion point."

On October 23, 2006 the Commission received a letter with notification of the start of construction. To date, no information has been received on the 50 percent completion of the project. This letter is to request a status for that information. We would appreciate receiving a response to this letter within 15 days. Please mail this response to Michael F. Burford, Director of Filings Division, Public Service Commission, 211 Sower Blvd., Post Office Box 615, Frankfort, Kentucky 40602.

Sincerely,

Michael F. Burford
Director

CONTRACT FOR WATER SERVICES
This contract witnesses that for and in consideration of the effort of the above named water system, to secure financing for construction of this system and continued maintenance of the system, the above applicant petitions to connect to the water system.
If a membership fee is charged, this application shall serve as a Certificate of Membership. If a deposit is charged, this application shall serve as a Certificate of Deposit.
The applicant hereby agrees to connect to the System. If it is a new connection, it is understood and agreed that at such a time as the connection is constructed, the applicant agrees to connect to the System immediately. If for any reason the connection is not made immediately, the applicant understands that a minimum charge will still be due and payable to the System for the connection. Failure to pay such charges and/or connect with the system will void this contract. Should the applicant desire to connect with the System in the future, all fees and connection charges will be due again, in full, and any and all amounts previously billed.
The applicant agrees to install and maintain a service line that will meet with the System's suggested guidelines. The applicant also agrees that no other residence will be connected to their service line. A separate meter must be installed for each residence. The applicant also agrees not to reset or give away water purchased from this System.
A separate contract may be required for trailer parks/commercial.
The applicant's right hereunder are subject to such further rules and regulations as the System may prescribe. The system may terminate service to any customer who is in violation of any Rule or Regulation of the System.
The system may terminate service to any customer who is past due with their bill unless an agreement for partial payment is reached with the appropriate representative at the billing office. Deposits to insure payment of monthly water bills and penalties on delinquent water accounts shall be as the System may prescribe.
The applicant agrees to permit the System to lay, maintain, repair, remove, and disconnect a service line and meter, and read meters at a point on customer's property, and to be designated by the System for each connection with right of ingress and egress for these purposes over customer's property, and to grant an easement for installation of water lines when required.
Non-payment by the due date may subject the account to be assessed a penalty. Non-payment by the disconnected date will result in the service being shut off. If the service is discontinued because of a non-payment, the entire amount due for the account plus all penalties, service charges, minimum bills, penalties, etc., must be paid before service will be restored.

A quick call to pulaski county rd department 👍 confirms Blue John Road easment is 40ft..
...20ft. From center..

Confirmation meter 2005 contract was set on pulaski county ky Road easment parcel in Feb. 2008.. in stealth (First-time)on 6271 blue John farm and again on as the Oct. 15th 2005 (2nd time) pressure ticket document proves. It contains a ACTUAL signature block of mine creating the creation of a falsely misleading document that I never seen before until it was on this commissions state docket.? I never even seen pressure ticket 🖋 s from my water church association. Dating back to 2002-3

LOGICALLY AND PHYSICALLY IMPOSSIBLE to have signed a document like this on my son's 45th birthday anniversary. I was out of the State of Kentucky. S.E.WATER CHURCH'S. installed this 3rd meter while I was out of Kentucky in Ohio and clearly a year ahead of my verbal requests for installation to start minimum bills and create more fraudulent history to protect their fairytale title fantasy dating to 1994..and not the true legal history of my family farm.

Impossible to Retrieve
Water from this Meter
ZERO Piping downstream

CONTRACT FOR WATER SERVICES

This contract represents that for and in consideration of the sum of the above named water system, to service the water for the installation of the system and equipment maintenance of the system, the above applicant agrees to connect to the water system.

The applicant hereby agrees to connect to the System. If it is a new connection, it is acknowledged and agreed that at such a time as the connection is completed, the applicant agrees to connect to the System immediately. If the any reason the connection is not made or is incomplete, the applicant understands that a minimum charge will be levied and applied to the System for the connection. Failure to pay said charge and/or connect with the System will void this contract. Should the applicant desire to connect with the System in the future, all fees and charges shall be applied to the System and any and all amounts previously owed.

The applicant agrees to install and maintain a service line that will meet with the System's suggested guidelines. The applicant also agrees that no other conditions will be connected to their service line. Subsequent to the installation of the service line, the applicant agrees not to install or give any other person or entity from this System.

The applicant hereby agrees to connect to the System. If it is a new connection, it is acknowledged and agreed that at such a time as the connection is completed, the applicant agrees to connect to the System immediately. If the any reason the connection is not made or is incomplete, the applicant understands that a minimum charge will be levied and applied to the System for the connection. Failure to pay said charge and/or connect with the System will void this contract. Should the applicant desire to connect with the System in the future, all fees and charges shall be applied to the System and any and all amounts previously owed.
