PUBLIC SERVICE COMMISSION

From: M.R. hill of Hemp
To: PSC Executive Director; Cline, Jeff D (PSC)
Subject: #2026-00233 & #2026-00191 notice of misrepresentations of facts in objection to intervene
Date: Friday, October 23, 2026 10:07:07 AM

In STOLL KEENON OGDEN PLLC & SEWATER recent filling they state Mr.Hemphill is confused about the mathematical address of the the blue John rd tank, this is true?? They never give a E-911 number address dating back 20 yrs ?? Now they state again on the docket its quarterly testing site is 2419 blue John rd.. but that is not accurate or factual information..as photos below clearly show the factual mathematical number address on the fire- Station are not same as STOLL KEENON OGDEN PLLC have stated AGAIN to this tribunal in writing. Furthermore, all sewater meters in this area are installed on public road easment land also..not on private property
