Re: CASE NO. 2026-00211 – Filing Deficiencies
North McLean County Water District
(Alternative Rate Filing Adjustment)

Dear Ms. Sallee:

Commission Staff has reviewed the response to our initial deficiency letter and there appears to be an unresolved deficiency. Subsequently, additional deficiencies were discovered in the original application. Therefore, the filing is now rejected for the reason(s) set forth below.

Filing deficiency pursuant to:

1. 807 KAR 5:076 Section 4(1)(a): A completed Attachment CPR (Current and Proposed Rates) is attached. The current and proposed rates form does not include the rates for the next 8,000 gallons, next 30,000 gallons, and over 40,000 gallons.
2. 807 KAR 5:076 Section (4)(1)(f): Detailed Analysis of Applicant's customers' bills showing revenues from present and proposed rates from each customer class (Attachment BA-DB or Attachment BA-FR is attached to ARF Form 1); Mathematical errors in the Existing Billing Analysis for the Industrial and Commercial customer classes. Revenues from this existing billing analysis do not match the Metered Water Sales from the SAO and there is no adjustment that rectify this. If guidance is needed, please feel free to reach out.
3. 807 KAR 5:076 Section 5(4)(c): Does notice of proposed rate adjustment meet regulatory requirements; The amount of the change requested in both dollar amounts and percentage change for each customer classification to

which the proposed rates apply. The percentage changes are incorrect in the notice.

The information necessary to cure the deficiency must be submitted within 10 days of the date of this letter.

If you need further assistance, please contact Brian Thomas at 502-564-3940.

Sincerely,

Justin McNeil
Executive Director
