ORDER

This matter arises from Northern Kentucky Water District's (Northern Kentucky District's) application, pursuant to KRS 278.020 and KRS 278.300, requesting an order granting a Certificate of Public Convenience and Necessity (CPCN) for improvements to Taylor Mill Treatment Plant and approval of the associated financing. The application was accepted for filing on August 21, 2026.

Pursuant to KRS 278.300(2), the Commission is required to rule on an application for financing approval within 60 days of the date the application is filed unless it is necessary for good cause to continue the proceeding. Northern Kentucky District filed a motion for a decision of the record on October 9, 2026.

Northern Kentucky District filed responses to Commission Staff's First Request for Information (Staff's First Request), on September 28, 2026, and the Commission issued Commission Staff's Second Request for Information (Staff's Second Request) on October 2, 2026. Northern Kentucky District filed a response to Staff's Second request on October 9, 2026. Due to the need for additional time to review Northern Kentucky District's responses, the Commission has determined that an investigation of the matter cannot be

completed within 60 days of the date the application was filed. For that reason, the Commission finds that good cause exists to continue the review of the application beyond the 60-day period specified in KRS 278.300(2) so that the Commission can conduct a thorough review of the proposed project.

The Commission notes that Northern Kentucky District requested that a final Order be issued prior to November 19, 2026, due to the expiration of bids. The Commission will make reasonable efforts to complete its review and issue a final Order prior to November 19, 2026.

IT IS THEREFORE ORDERED that the review period of the application shall be continued to further investigate and review the application pursuant to KRS 278.300(2).
