Subject: #2026-00233 - #2026-00191 discovery data request

Heres my data request for the new rate increase# 2026-00233/ 2026-00191.

Please add this question to the others.

question# 25 .Demand explanation for complete conflict of interest for all 8336 Sewater assoc. members, Burnside City & Pulaski county tax payers. Pulaski county atty.Matt Hatfield and Burnside City Attorney Molly Hardy (double Charging & dipping on this case) are Kentucky Public officer's & taxpayer funded joining with STOLL KEENON OGDEN P. Douglas Barr,Tina Fredericks who are defending & filing a forgery and Indentiy theft Oct 15 2025 contract and void Deeds on state dockets 2026-00191 and 2026-00233. Against a Ky.state taxpayers agricultural business

Thank you Michael Hemphill

Blue John rd Burnside ky 42519

Category 4: Dual-Docket Deceptions & Padded Legal Billing Hours

Question 14: Demand for the complete, unedited source files, billing itemizations, and internal compliance checks showing why senior counsel repeatedly deployed identical, 81-day-old copy-and-pasted text strings across separate dockets.

Question 15: Interrogatory forcing them to reconcile the structural contradiction between their October 8th statement opposing dual-docket litigation as an unacceptable administrative burden and their subsequent filings seeking to dismiss your intervention in Case No. 2026-00233.

Question 16: Demand for all unredacted, itemized billing invoices, hours charged, and fee schedules submitted to the association by Douglas P. Barr, Damon Talley, and Tina Frederick since ~~July 2025~~ **MAY 14th 2026**.

Question 17: Interrogatory demanding they explain how duplicating these billable hours across parallel tracks serves the public interest of the 8,336 local member families.

Question 18: Demand for any and all internal legal directives or client invoices relating to the coordination of responses between Case No. 2026-00191 and Case No. 2026-00233.

Category 5: Grandfathered Tax Exemptions & The October 15th Forgery

Question 19: Demand for the original customer file, copy of driver's license, and signature card captured by the utility 21 years ago to verify your grandfathered agricultural status and exemption number.

Question 20: Interrogatory forcing them to explain why they systematically ignored your grandfathered status under KRS 139.480 while multi-state commercial distributors like Tractor Supply Co. and Jackson Propane readily verify and honor it.

Question 21: Demand for the original digital file, server transmission stamps, signature-block metadata, and federal application attachments for the October 15, 2025 document.

Question 22: Interrogatory forcing them to explain how you physically signed an infrastructure contract in Kentucky on your son's 45th birthday when your unalterable cellular carrier network logs place your device fingerprint firmly inside your Ohio residence that entire day. **10/15/25**

Question 23: Demand for the official public announcements, internal emails, text messages, and bylaws regarding the sudden time swap of the board meeting from 8:00 PM to 5:30 PM, along with the full meeting recording and presence logs for City Attorney Molly Hardy. **MAY 14 2026**

Question 24: Demand for all original digital source files, electronic transmission logs, server upload stamps, signature-block creation metadata, and internal processing histories for the October 15, 2025 contract fabrication and attached pressure ticket placed by the utility and its counsel onto the official docket of Case No. 2026-00191, and explicitly reconcile the digital file footprint against the carrier network records placing the complainant's physical device inside their Ohio residence that entire day, as well as an audit of why this report remains actively shelved on the desk of County Attorney Matt Hatfield.

MASTER DISCOVERY DEMAND INDEX

Target Submission Date: Monday, October 19, 2026

Active PSC Dockets: Case No. 2026-00191 & Case No. 2026-00233

Category 1: The 6273 Blue John Road Footprint & Title Fraud

Question 1: Demand for the exact, verified E-911 street address, global positioning coordinates, and county tax parcel ID for the public infrastructure storage tank asset listed in their capital accounts.

Question 2: Demand for the certified title abstracts, deed warranties, and attorney title opinions executed by the utility prior to purchasing 6273 Blue John Road (Pulaski County Tax Parcel Map Number 108). 00.39.1

Question 3: Interrogatory demanding they identify the exact public right-of-way or recorded easement row utilized by utility trucks and technicians to physically reach the facility without crossing your private 1802 ancestral boundaries.

Question 4: Demand for the original purchase contract, cancelled bank drafts, and internal board minutes detailing the \$2,500.00 acquisition from Charlie Hurst for the footprint at Parcel 108. 0039.1

Question 5: Demand for all title abstracts and legal reviews conducted by the utility's counsel regarding the 1994 self-serving deed correction, forcing them to explain how they cleared public infrastructure funding using an un-ratified title manipulation.

Category 2: 20-Year Asset Inflation & The 2006 Sworn Affidavits

Question 6: Demand for the original sworn financial balance sheets, capital depreciation logs, and matching federal loan certifications filed under Case No. 2006-00371 on August 3, 2006.

Question 7: Interrogatory forcing them to reconcile the exact accounting variance between Damon Talley's and Morris Vaughn's sworn signature blocks in 2006 claiming a \$10,000.00 asset acquisition value and the actual \$2,500.00 courthouse deed transaction executed with Charlie Hurst.

Question 8: Demand for the original 2006 certificate of public convenience and necessity (CPCN), matching federal loan compliance audits, and engineering maps from that expansion cycle.

Question 9: Demand for all internal legal risk assessments, title insurance policies, and board correspondence from 2005–2006 regarding the acquisition of Parcel 108 from Charlie Hurst.

Category 3: Environmental Safety & The 5-Mile Proxy Testing Fraud

Question 10: Demand for all daily water pressure readings, coliform bacteria sample sheets, and sediment flush records for the 'Blue John tank' asset since May 14th board meeting.

Question 11: Demand for the exact physical street address and operator field notes for the remote fire station hydrant used as a water quality testing proxy.

Question 12: Interrogatory forcing them to explain why the utility standardly maintains a 2419 Blue John Road testing address on the state safety servers while physically running their checks miles upstream from TANK.

Question 13: Demand for all communication records with state environmental regulators and engineering compliance inspectors regarding the testing location parameters for the local member footprint.
