

COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

ELECTRONIC PURCHASED GAS ADJUSTMENT	)	CASE NO.
FILING OF MARTIN GAS, INC.	)	2026-00240

ORDER

On August 26, 2026, Martin Gas, Inc. (Martin) filed its proposed Gas Cost Recovery (GCR) rate report to be effective October 1, 2026. Martin's previous GCR rate was approved in Case No. 2026-00145.¹

LEGAL STANDARD

The Commission's standard of review for GCR rates is well settled as stated in KRS 278.274(1):

In determining whether proposed natural gas utility rates are just and reasonable, the commission shall review the utility's gas purchasing practices. The commission may disallow any costs or rates which are deemed to result from imprudent purchasing practices on the part of the utility.

Further, the utility has the burden to prove the rates are just and reasonable and the Commission may reduce the purchased gas component of the utility's rates, or the rates charged by an affiliated company to the extent the amount is deemed to be unjust or unreasonable.²

¹ Case No. 2026-00145, *Electronic Purchased Gas Adjustment Filing of Martin Gas, Inc.* (Ky. PSC June 26, 2026).

² KRS 278.274(2), KRS 278.274(3)(c), and KRS 278.274(3)(d).

DISCUSSION

After reviewing the record in this case and being otherwise sufficiently advised, the Commission finds that Martin's report includes revised rates designed to pass on to its customers its expected change in gas costs. Martin's report sets out an Expected Gas Cost (EGC) of \$6.1980 per Mcf, which is an increase of \$0.0948 per Mcf from its previous EGC of \$6.1032 per Mcf. Martin's report sets out no supplier Refund Adjustment. Martin's report sets out a current quarter's Actual Adjustment (AA) of \$0.0348 per Mcf. Martin's total AA is \$0.3442 per Mcf, which is an increase of \$0.0196 per Mcf from its previous total AA of \$0.3246 per Mcf. Martin's report sets out a current quarter Balance Adjustment (BA) of \$0.0195 per Mcf. Martin's total BA is \$0.0060 per Mcf, which is a decrease of \$0.0099 per Mcf from the previous total BA of \$0.0159 per Mcf.

Based on the calculations above, the Commission finds that Martin's GCR rate is \$6.5482 per Mcf, which is an increase of \$0.1045 per Mcf from the previous GCR rate of \$6.4437 per Mcf. The Commission finds that the inputs, resulting components and calculation of Martin's proposed GCR rate of \$6.5482 per Mcf to be reasonable. The Commission further finds that the rates set forth in the Appendix to this Order are fair, just and reasonable and should be approved for service rendered by Martin on and after October 1, 2026.

For the purpose of transparency and to maintain a record of information for future use, the Commission finds that Martin shall submit all invoices it receives along with its monthly usage reports for each month of the reporting period when it files its future GCR rate reports.

Should Martin purchase sustainable natural gas from a renewable source during the reporting period of any future GCR reports, then the supplier, cost, and amount must be documented in its cover letter to the Commission.

IT IS THEREFORE ORDERED that:

1. The rate proposed by Martin and set forth in the Appendix to this Order is approved for service rendered on and after October 1, 2026.
2. Martin shall submit all invoices it receives along with its monthly usage reports for each month of the reporting period when it files its future GCR rate reports.
3. Should Martin purchase sustainable natural gas from a renewable source during the reporting period of any future GCR reports, then the supplier, cost, and amount shall be documented in its cover letter to the Commission.
4. Within 20 days of the date of service of this Order, Martin shall file with this Commission, using the Commission's electronic Tariff Filing System, revised tariff sheets setting out the rate approved herein and reflecting that it was approved pursuant to this Order.
5. This case is closed and removed from the Commission's docket.

Entered on this 25th day of September, 2026.
