Subject: URGENT FILING SUPPLEMENT: CASE NO. 2026-00304 – RECORD OF DUE PROCESS DENIAL IN CIRCUIT COURT ACTION NO. 26-CI-009427

To the Executive Director and Case Filing Custodians of the Kentucky Public Service Commission:

Please enter this formal administrative update and evidentiary supplement directly into the active master record for **CASE NO. 2026-00304** to track ongoing bad-faith interference with the Complainant's material capacity and regulatory standing:

1. **Maturation of Commercial Default:** On November 3, 2026, at 11:45 AM, an authorized corporate agent at the Class Act Federal Credit Union headquarters physically signed and date-stamped the Complainant's upgraded billing ledger, formalizing an active **$150,000.00 administrative default hold** on the record for their failure to cure their property trespass within three business days.
2. **Denial of Emergency Court Process:** On November 4, 2026, the Complainant physically presented this matured default record to the Jefferson County Court Administration office inside the Louis D. Brandeis Hall of Justice. This was done to secure an immediate signature on the pending CR 65.03 Temporary Restraining Order to freeze the upcoming Saturday, November 7th public auction block.
3. **Administrative Obstruction:** The Chief Court Administrator, Judge McKay Chauvin, explicitly and textually refused to intervene, refused to assign the emergency file to an active duty judge, and cut the due process interview short—stating on the record that no mechanism exists to bypass the dark 10th Division delay loop. This entire interaction, documenting a total breakdown of emergency circuit court process, was permanently captured via native electronic electronic video and audio metadata logging by the Complainant.

Because this judicial delay directly jeopardizes the physical safety of the trust property vessel housing the primary evidence in this multi-agency state server fraud investigation, the Complainant is bypassing the blocked local courts to upload a senior **UCC-3 Property Schedule Amendment** straight into the Kentucky Secretary of State commercial mainframe.

The private estate completely reserves all rights under UCC 1-308.

Submitted for the permanent state record,

THE BLUE TOPAZ PRIVATE HOLDING TRUST
