Case No. [2020-00391](#)

I apologize for the second email I forgot the original case number.

I am located within the 2,400 feet notice of the Henderson Solar project. I received notice on Christmas Eve 2025 of the project. (This was my first and only formal notification) However, they just sent out certified mail last week to many of my neighbors for an informational meeting. I was not included in this notification yet again. Several neighbors have also claimed they did not receive this recent notification.

There is something especially dubious about their underhanded intent of notification to the people who will be directly affected by this Solar Project. These unscrupulous tactics in efforts to sometimes notify- some of the people speak to their lack of professionalism and their disdain of the law, zoning requirements, and the citizens of Henderson County.

I read the recommendations for your evidentiary hearing. The fact that Henderson Municipal Power and Light lobbied so hard for this solar complex but failed to inform you that the neighbors of solar complex all use Kenergy for their electricity and that HMPL only serves the city of Henderson and not the county residents seems to be more misleading and dubious intent. This solar project adversely affects the county residents of Henderson and the city residents will be the only potential beneficiaries from this project.

Thank you,

Rachel Bray- Candidate for County Magistrate District 3
