State: Kentucky  
Zip: 40220

Comments:

I am requesting review of recent billing increases by LGE and KU Energy that were attributed to "interim rates." Customers were not given clear advance notice or a transparent explanation of how these rates were determined. As a regulated monopoly utility, rate changes should be based on documented cost justification and formal approval rather than discretionary adjustments.

These sudden billing increases have caused unnecessary financial hardship for many Kentuckians, particularly during the winter months when energy use is unavoidable for basic heating. The lack of clear notice and explanation has created confusion and stress for households already facing rising living costs.

I ask the Kentucky Public Service Commission to review whether these changes comply with 807 KAR 5:006, ensure that customers receive proper advance notice of any future rate changes, and require public disclosure of the data and methodology used to justify interim or temporary rate increases.
