### Comments:

Duke Energy has no basis to raise our rates to cover costs. Duke Energy brings in multi-billions in profit each year. As long as they are this profitable, they do not need more money from Kentucky families. I would like to formally ask for this approval to be considered for appeal. I do not see any justification for Kentucky citizens to foot the bill for a company making billions in profit each year. It is also absurd to be charged a fee just for being a customer. This is not done by all utility companies. We have to pay this fee even when we use zero natural gas. Considering the fact this fee was just raised, this is a pure money grab. Instead of raising this fee, it should be eliminated altogether. This decision is hurting Kentucky families. It needs to be revoked.
