PUBLIC SERVICE  
COMMISSION

COMMONWEALTH OF KENTUCKY  
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

Issuance to Third Kentucky Cellular Corporation DBA Wireless 2000 Telephone and Northstar Technology, LLC (collectively, the "Original Applicants") and Hemphill Corporation ("Hemphill") of a Certificate of Public Convenience and Necessity to Construct a Wireless Communications Facility in the Louisville-Lexington-Evansville Major Trading Area, London, Laurel County, Kentucky (the "Certificate");

[Keavy], Site No. 12 (the "Site")

Docket No. 2001-355 (the "Docket No.")

**NOTIFICATION OF TRANSFER OF OWNERSHIP**

On March 14, 2002, the Kentucky Public Service Commission executed an Order granting to Original Applicants a Certificate with respect to the Site and related Docket No. (a copy of said Order is attached hereto for reference).

In connection with the issuance of the Certificate, a cellular tower has been built on the Site. The cellular tower is operational and is owned by Hemphill.

Ownership of the cellular tower has been transferred from Hemphill to SBA Towers III LLC, a Florida limited liability company, effective April 19, 2011.

The Site and improvements thereto including, without limitation, the self-supporting antennae, were constructed and are in operation in accordance with the Certificate.

Please direct any questions with respect to this matter to the undersigned, attorney for Hemphill.

Respectfully submitted,  

Patrick R. Hughes, Esq.

LAUREL COUNTY, KENTUCKY	)	

O R D E R

On February 19, 2002, Third Kentucky Cellular Corporation d/b/a Wireless 2000 Telephone and Northstar Technology, LLC ("Applicants") filed an application seeking a Certificate of Public Convenience and Necessity to construct and operate a wireless telecommunications facility. The proposed facility consists of a self-supporting antenna tower not to exceed 320 feet in height, with attached antenna, to be located at Cold Hill Road, Keavy, Laurel County, Kentucky. The coordinates for the proposed facility are North Latitude 37° 03' 35" by West Longitude 84° 09' 58".

The Applicants have provided information regarding the structure of the tower, safety measures, and antenna design criteria for the proposed facility. Based upon the application, the design of the tower and foundation conforms to applicable nationally recognized building standards, and a Licensed Professional Engineer has certified the plans.

Pursuant to 807 KAR 5:063, the Applicants have notified the Laurel County Judge/Executive of the proposed construction and, to date, no comments have been filed. The Applicants have filed applications with the Federal Aviation Administration ("FAA") and the Kentucky Airport Zoning Commission ("KAZC") seeking approval for the construction and operation of the proposed facility. Both decisions are pending.

The Applicants have filed evidence of the appropriate notices provided pursuant to 807 KAR 5:063. The notices solicited any comments and informed the recipients of their right to request intervention. To date, no public comments have been filed with the Commission.

Pursuant to KRS 278.280, the Commission is required to determine proper practices to be observed when it finds, upon complaint or on its own motion, that the facilities of any utility subject to its jurisdiction are unreasonable, unsafe, improper, or insufficient. To assist the Commission in its efforts to comply with this mandate, the Applicants should notify the Commission if they do not use this antenna tower to provide service in the manner set out in their application and this Order. Upon receipt of such notice, the Commission may, on its own motion, institute proceedings to consider the proper practices, including removal of the unused antenna tower, which should be observed by the Applicants.

The Commission, having considered the evidence of record and being otherwise sufficiently advised, finds that the Applicants have demonstrated that a facility is necessary to provide adequate utility service and therefore a Certificate of Public Convenience and Necessity to construct the proposed facility should be granted.

IT IS THEREFORE ORDERED that:

1. The Applicants are granted a Certificate of Public Convenience and Necessity to construct a wireless telecommunications facility. The proposed facility consists of a self-supporting antenna tower not to exceed 320 feet in height, with attached antenna, and is to be located at Cold Hill Road, Keavy, Laurel County, Kentucky. The coordinates for the proposed facility are North Latitude 37° 03' 35" by West Longitude 84° 09' 58".

2. The Applicants shall file a copy of the final decisions regarding the pending FAA and KAZC applications for the proposed construction within 10 days of receiving the decisions.

3. The Applicants shall immediately notify the Commission in writing, if, after the antenna tower is built and utility service is commenced, the tower is not used for a period of 3 months in the manner authorized by this Order.

Done at Frankfort, Kentucky, this 14th day of March, 2002.

By the Commission

ATTEST:

  
Executive Director
