RE: Inquiry dated April 15, 2015

Mr. Rice:

I am writing to confirm that the below documents were received via email:

- Correspondence from Stacy L. Gerard (USDOT) to Eddie Smith (Public Service Commission of Kentucky) dated 6/30/2003 petitioning for a deviation
- Correspondence from J. D. Sparkman Marathon Ashland Petroleum to Thomas Dorman Kentucky Public Service Commission) regarding request for deviation dated 9/18/2002

These documents were previously published for Marathon Ashland Petroleum Company. The name of the parent company has changed to Marathon Petroleum Company LLC, and the previous responsibilities have passed with the name change.

As requested, Marathon has reviewed and confirms that the existing waiver in the documents is still applicable to Marathon's Catlettsburg Refinery operation, and the conditions within the documents have, and continue to be met. The natural gas line and hydrogen product line that are referenced are critical to the day to day operation of the facility. Marathon is operating, inspecting, and maintaining the lines to the requirements of API 570 and company practices.

Please advise if you require any additional information regarding this issue. Feel free to contact me at the number below if I can be of further assistance.

Respectfully,

Dan Schlaeppli
