PUBLIC SERVICE  
COMMISSION

Mr. Jeff Derouen, Executive Director  
Kentucky Public Service Commission  
211 Sower Boulevard  
Frankfort, KY 40601

Subject: KPSC Case No. 2007-00551  
2008-2009 Final Hedge Report

Dear Mr. Derouen:

Atmos Energy Corporation (Company) herewith submits an original non re-dacted and ten (10) re-dacted copies of the final hedge report pursuant to the Ordering Paragraph 4 of the Commission's Order dated April 8, 2008 in the above referenced proceeding. Exhibits A-C are CONFIDENTIAL and will be filed with a petition of confidentiality. This filing replaces the one made on May 3, 2010.

Please contact either myself at 270.685.8024 or Len Matheny at 270.685.8062 if the Commission or Staff has any questions regarding the enclosed report.

Sincerely,

A handwritten signature in black ink that reads "Mark A. Martin".

Mark A. Martin  
Vice President, Rates & Regulatory Affairs

COMMONWEALTH OF KENTUCKY  
BEFORE THE PUBLIC SERVICE COMMISSION

IN THE MATTER OF:

THE FINAL REPORT OF ATMOS ENERGY CORPORATION  
ON ITS HEDGING PROGRAM FOR THE 2009-2010  
HEATING SEASON

Case No. 2007-00551

**MOTION TO ACCEPT FINAL REPORT OF HEDGING PROGRAM  
FOR THE 2009-2010 HEATING SEASON**

Comes now, Atmos Energy Corporation ("Atmos Energy") and pursuant to the Commission's Order of April 8, 2008, files herewith its Final Report for the 2009-2010 Heating Season identifying, inter alia, gas costs realized under Atmos' hedging program. Atmos Energy respectfully moves the Commission to accept the attached Final Hedging Report for the 2009-2010 Heating Season.

Respectfully submitted this 17<sup>th</sup> day of May, 2010.

COMMONWEALTH OF KENTUCKY  
BEFORE THE PUBLIC SERVICE COMMISSION

IN THE MATTER OF:

THE FINAL REPORT OF ATMOS ENERGY CORPORATION  
ON ITS HEDGING PROGRAM FOR THE 2008-2009  
HEATING SEASON

Case No. 2007-00551

**AMENDED  
PETITION FOR CONFIDENTIALITY OF SCHEDULES  
TO ATMOS' FINAL HEDGING REPORT**

Atmos Energy Corporation ("Atmos Energy") respectfully petitions the Kentucky Public Service Commission ("Commission"), pursuant to 807 KAR 5:001 Section 7, and all other applicable law, for confidential treatment of the attached schedules to Atmos Energy's Final Hedging Report for the 2009-2010 heating season.

1. On April 8, 2008 the Commission entered an Order in this proceeding approving Atmos Energy's hedging program for a five (5) year period ending March 31, 2013. The Commission's Order further directed Atmos Energy to file interim and final hedging reports as required by the Commission in its approvals of Atmos' previous hedging programs.

2. The attachments to the Petition contain sensitive pricing information and confidential information about Atmos Energy's hedging strategies. Atmos Energy's hedging strategies (including the prices Atmos Energy would likely pay for hedging contracts under various market conditions) constitutes sensitive, proprietary information which if publicly disclosed could put Atmos Energy at a commercial disadvantage in future hedging negotiations. Prospective brokers of hedging devices would gain insight into how Atmos Energy is likely to react to changing market conditions in terms of what Atmos Energy might be willing to pay for hedging contracts. This information would not otherwise be available. Although the full extent to which Atmos Energy would be disadvantaged in future negotiations is difficult to predict, it is clear that Atmos Energy would likely be disadvantaged in future negotiations if the information contained in the attachments to this Petition is made public.

3. Atmos Energy would not, as a matter of company policy, disclose information like that contained in the attachments to any person or entity, except as required by law or pursuant to a court order or subpoena. Atmos Energy's internal practices and policies are directed towards non-disclosure of the attached information. In fact, the information contained in the attached schedules is not disclosed to any personnel of Atmos Energy except those who need to know in order to discharge their responsibility. Atmos Energy has never disclosed such information publicly. This information is not customarily disclosed to the public and is generally recognized as confidential and proprietary in the industry. The Commission has historically granted Atmos Energy confidential protection to information concerning the actual price being paid by Atmos Energy to individual marketing companies and other suppliers of natural gas.

4. There is no significant interest in public disclosure of the information contained in the attached schedules. Any public interest in favor of disclosure of the information is out weighed by the competitive interest in keeping the information confidential.

5. The information contained in the attached schedules is also entitled to confidential treatment because it constitutes a trade secret under the two prong test of KRS 265.880: (a) the economic value of the information is derived by not being readily ascertainable by other persons who might obtain economic value by its disclosure and (b) the information is the subject of efforts that are reasonable under the circumstances to maintain its secrecy. The economic value of this information is derived by Atmos Energy maintaining the confidentiality of the information since prospective brokers could obtain economic value by its disclosure.

6. Pursuant to 807 KAR 5:001, Section 7 (3), temporary confidentiality of the attached schedules should be maintained until the Commission enters an order as to this Petition. Once the order regarding confidentiality has been issued, Atmos Energy would have twenty (20) days to seek alternative remedies pursuant to 807 KAR 5:0001, Section 7 (4).

7. In Atmos Energy's previous hedging cases, the Commission has granted confidential protection to

the same type of information for which confidential protection is now requested.

WHEREFORE, Atmos Energy petitions the Commission to treat as confidential the attached schedules consisting of 13 pages and marked as "CONFIDENTIAL".

Respectfully submitted this 17 day of May, 2010.

#### VERIFICATION

I, Mark A. Martin, being duly sworn under oath state that I am Vice President of Rates and Regulatory Affairs for Atmos Energy Corporation, Kentucky/Midstates Division, and that the statements contained in the foregoing Petition are true as I verily believe.

PUBLIC SERVICE  
COMMISSION

**ATMOS ENERGY CORPORATION  
KENTUCKY DIVISION  
FINAL HEDGING REPORT  
CASE NO. 2007-00551**

The Kentucky Public Service Commission ("Commission") requested in its Order in Case No. 2007-00551 that Atmos Energy Corporation ("Atmos Energy" or "Atmos") provide the Commission with a final hedging report as required by the Commission in its approvals of Atmos Energy's previous hedging programs. The final hedging report is to be provided within 30 days of March 31, 2010. The report is to "identify any gas cost savings realized under the hedging program and provide the accounting entries made by Atmos Energy to record monthly changes in market prices and the closing of the contracts net settlement." Additionally, the Commission requested a data summary of all hedging transactions. The purpose of this report is to provide the requested information pertaining to the 2009-2010 heating season.

Atmos Energy's Purchasing Decisions

Please refer to Exhibit A "Chart of Implementation" for a chart showing the winter month futures pricing from April 2009 through October 2009 with points marked indicating days on which Atmos executed futures transactions. Market conditions and the forecasts summarized on the exhibit are discussed below.

Market Conditions

Throughout the implementation period from April 2009 through October 2009 the 2009-2010 winter strip (contracts November 2009 through March 2010) traded in a fairly tight band from a low of \$4.59 to a high of \$6.10. During the months of April 2009 through October 2009 the U.S. Energy Information Administration (EIA) records indicate Dry Natural Gas Production 432 Billion Cubic Feet (Bcf) greater than the same period last year while year over year industrial demand was down 288 Bcf. This strong supply and weakened demand coupled with a nonexistent hurricane season caused a new record in storage level of 3.79 Tcf (trillion cubic feet).

Exhibit B shows details of the hedging implementations and results for winter 2009-2010. Due to increased supply, weak demand and full storage, each delivery month experienced an increase to incremental gas cost. Atmos financially hedged MMBtu at a weighted price of \$! with a total incremental cost of \$ . The Atmos hedging program was successful in stabilizing gas costs for its customers, and will continue to provide value to Atmos' customers through implementation of price stabilization programs. As stated in the Commission's Order in case No. 2003-00192 "achieving price stability, not (necessarily) the lowest possible cost, is the (primary) goal of a hedging program."

Atmos Energy's Hedging Program Contract Monthly Changes, Settlements and Accounting Entries

Please refer to Exhibit C for the accounting entries related to the program.

Atmos Energy's Hedging Program for Winter 2010-2011 and Winter 2011-2012

Atmos Energy's hedging plan for winter 2010-2011 and winter 2011-2012 is to continue to utilize a portfolio-like approach, dividing its commodity gas purchases between company owned and pipeline storage, market purchases and financial hedges. Approximately 70% of the normal winter volumes will be stored during the injection season for use each winter. Of the remaining winter requirements, up to 50% of the gas purchases will be financially hedged (or 15% of total winter normal requirements), with the balance of requirements purchased at market prices. In recognition of Commission guidance in Case No. 2003-001982, Atmos will enter its arrangements in response to changes in market conditions.

Atmos Energy plans to hedge for up to two winter seasons (November through March) with the implementation period which started April 2010 and ends October 2010. Financial hedges could consist of swaps, futures, options or a combination of instruments. Upon completion of the implementation period a minimum of 0% and a maximum of 50% of normalized expected purchases net of storage will be hedged for each 2010-2011 winter month. Upon completion of the implementation period a minimum of 0% and a maximum of 25% of normalized expected purchases net of storage will be hedged for each 2011-2012 winter month.

Atmos proposes to file both an interim and final report on its hedging plan consistent with the requirements of previous hedging programs. The interim report will be filed within 30 days of the November 1, 2010 start of the winter season and the final report filed within 30 days of the March 31, 2011 end of the heating season. Atmos remains convinced that a disciplined hedging strategy is essential to ensure affordable and manageable gas costs for Kentucky rate payers in response to natural gas price volatility and market uncertainty.
