PARTIES OF RECORD

Re: Case No. 2009-00272

Application of the Madison County Utilities District for a Certificate of Public Convenience and Necessity to Purchase an Automated Meter Reading System and Approval of Financing for Automated Meter Reading System

Attached is a copy of electronic mail correspondence that has been filed in the record of the above-referenced case. Any comments regarding this correspondence should be submitted to the Commission within five days of receipt of this letter. Any questions regarding this letter should be directed to Linda Faulkner.

Sincerely,

A handwritten signature in blue ink, appearing to read "Jeff Derouen".

Jeff Derouen
Executive Director

If this is your official response, please file a hard copy with us referencing the case number so that I can submit it into the record. I have given the information to Engineering to review. The last requirement for this case is to file the final cost of the project with us. From what you have told me, this is an ongoing project and has not been completed. Is that correct?

Sorry Linda. It has been difficult to identify records to bolster our anecdotal evidence. Our supervisor believes that every meter that has been replaced exceeded the time limits specified in the regulations.

The meters referenced in the filing were the first area of the district we intended to replace. It is our intention to eventually replace all of our meters with radio read meters if they continue to perform and we don't have issues with the manufacturer of the meters. We have experienced various service problems with the providers of the meters and that has slowed us down but the project would not be considered completed at this time. I have copied John Clark (Supervisor of MCUD) on this email and he can correct me if I am wrong about that assertion or give you greater detail if you need any.

Very truly yours,

Jud Patterson

Good afternoon Jud.

I have been asked by my supervisor to check with you on the status of getting us the rest of the information we need on this case.

Please advise.

Good afternoon Jud.

I received your fax. Thank you. I will need to wait for the hard copy before updating the case file but I will let Jeff Derouen, Executive Director, know that he needn't bring this up to the Commission when they meet Monday.

Is the project complete? If it is, when you send the supplement of the exact number of meters that exceeded the time period requirements it would be great if you could tell me the final cost of the project. That is the final requirement for this case.

Have a good week-end.
