PUBLIC SERVICE
COMMISSION

To Whom it May Concern:

The South 641 Water District in Hazel, KY received your letter regarding our "As-built plans", etc. that your office needed for our WWTP and Sewer Rehab project. We have notified our engineering firm, Florence & Hutcheson, and they should be able to get the required information to you as soon as the two projects are closed out.

The projects were due to be completed earlier in the year, but the District encountered several issues with the WWTP, and had to have lines replaced as well as a new pump installed.

We will follow-up again with the engineers to see that the Public Service Commission receives all of the final paperwork as soon as possible. If you have any further questions or concerns please contact me at 270-492-8857.

Thank You,
