- B. Non-payment within twenty days from the due date will result in the water being shut off from the party of the FIRST PART'S property.

 party of the SECOND PART.

The party of the FIRST PART agrees to pay the tap-on fee \$ 1100.⁰⁰, at the time of signing this contract to connect to the water system and to pay the minimum monthly bill, even if no water is used, as well as charges for any water used that is above the gallons included in the minimum monthly bill. The billing will begin as soon as the meter is installed by the District and water is made available to the meter, regardless of whether the party of the FIRST PART connects to the system.

It is understood and agreed that the party of the SECOND PART reserves the right to determine the size of service connection to be used to supply water to the party of the FIRST PART. A 3/4" x 5/8" meter will be used unless the party of the FIRST PART contracts for a larger meter. All other meters will be actual cost.

The party of the FIRST PART agrees to permit the District to lay, maintain, repair, remove and disconnect a service line and meter, and read meters at a point on customer's property to be designated by the District for each signed connection with the right of ingress and egress on property, and to grant an easement for installation of water lines where required.

The party of the FIRST PART agrees that no other present or future source of water will be connected to any water lines served by the District's water lines and will disconnect from their present water supply prior to connecting to and switching to the District's system and shall eliminate their present or future cross-connections in their system. The party of the FIRST PART shall apply for a plumbing construction permit at the local health department in the county where the service address is located.

The party of the FIRST PART shall install and maintain at their own expense a service line which shall begin at the meter and extend to the dwelling or place of use. The party of the FIRST PART shall install their own cut-off valve in their service line.
